We are here for you.

MileStone Academy meets the individualized social and academic needs of high school students who have struggled in large conventional classes.

We support students with diverse learning styles by fostering a nurturing and positive environment. Our atmosphere is inclusive, calm and diverse. We work with each student and their families to help identify the student's strengths and challenges.

Our compassionate staff is experienced in meeting the needs of students who have:

- Struggled with failure
- Felt isolated
- Had low self-esteem
- Experienced bullying
- Experienced school or social anxiety

MileStone students find peace and comfort in this small school where they learn effective strategies for managing challenges throughout their lives.

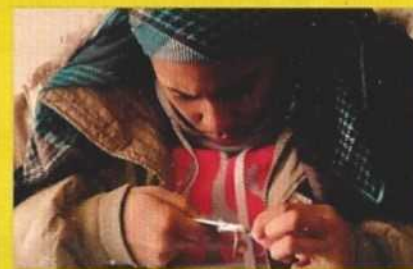

Our evidence-based curriculum is aligned with Best Practices in a challenging, collaborative and supportive environment, cultivating students who achieve success in their high school and post-high school careers.

MileStone program highlights:

- Our faculty fully understands our students' strengths and challenges.
- We help students to better understand their personal learning challenges, strengths and goals.
- Our multi-sensory instruction stimulates visual, auditory and tactile senses to enhance memory.
- We integrate study skill strategies with subject area knowledge to enhance academic proficiency.
- Technology is integrated and individualized to enhance individual learning and to help students develop organizational skills.
- Our teachers use the latest evidencebased teaching interventions to help students develop strategies and tools that enable them to succeed.
- We help students build self-advocacy skills to help them overcome frustrations, leading to academic achievement and social success.
- Student teacher ratio is 6:1

In addition to our individualized intensive remediation in language arts and math, our students have been provided with the following educational experiences:

- Dissecting a fetal pig
- Coding and making animations
- Following the trail of George Washington's troops
- Cooking to learn weights and measures

Most importantly, learning that they are all capable of success in school.

Ideally located in Jenkintown, Eastern Montgomery County, MileStone Academy students enjoy access to the area's colleges and vocational training communities.
